

### PIRAYA AUTOMATIC TECHNICAL DATA

- Weight :15 kg
- Weight in water: 10 kg  
(with floating body 5 kg)
- Total weight with carriage and floating cable: 55 kg
- Length: 420 mm, width 630 mm
- Suction width: 630 mm
- Speed: 0.2 m/s
- Suction capacity: 48 m<sup>3</sup>/h, (800 l/min)
- Cleaning capacity: approx 350 m<sup>2</sup>/h
- Mains voltage: 440 V/3-phase or 230 V/ monophase
- Pump voltage: 42 V
- Max current consumption: 900 W
- Wireless remote control
- Floating cable: 40 m
- Mains cable : 10 m
- Filter standard: 95 microns
- Rotating brushes

### PIRAYA MANUAL TECHNICAL DATA

- Weight: 10 kg
- Weight in water: 6 kg
- Total weight with carriage and floating cable:34 kg
- Length: 300 mm, width 600 mm
- Suction width: 600 mm
- Suction capacity: 48 m<sup>3</sup>/h, (800 l/min)
- Cleaning capacity: 100 m<sup>2</sup>/less than 30 min
- Mains voltage: 230 V mono phase
- Pump voltage: 42 V
- Max current consumption: 830 W
- Manual propulsion by pole
- Cable with floats: 18 m
- Mains cable : 10 m
- Pole extensions: 1,2 m x 6 pcs
- Filter standard: 95 microns
- Rotating brushes

# Pool Cleaner

# KERO AUTOMATIC

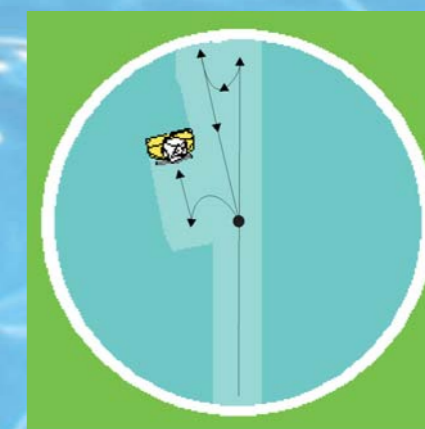

## Piraya

## THE PIRAYA AUTOMATIC POOL CLEANER HAS TWO DIFFERENT PROGRAMMES:

Programme 1, for rectangular or square-shaped pools.

Programme 2, for round and free form pools.

The Piraya Automatic Pool Cleaner is a high-tech Swedish product, created in close collaboration with pool-manufacturers. KERO PUMP has long experience in the fields of both pumps, and pool cleaning.

## KERO Piraya MANUAL

### PIRAYA AUTOMATIC - THE OPTIMAL POOL-CLEANER

- Easy to install and use
  - Low weight: 15 kg (10 kg in water).
  - Automatic operation, or manual operation by remote control
  - Programme for rectangular, round, and free-form pools
  - Unique cleaning capacity
    - High-speed rotating brushes for the pool bottom
    - High suction effect – 800 litre per minute
  - Simple and easy-to-maintain design
  - Highly reliable
  - Low power consumption
- In automatic mode, the Piraya cleans a 25m x 12 m pool in approximately 50 minutes.

#### NEW IMPROVEMENT!

A float can be fixed underneath the machine cover to improve operation in pools with steeply sloping bottoms (optional equipment)

### PIRAYA MANUAL POOL CLEANER

- Manual pole propulsion
- Fast and effective cleaning with the aid of a unique pole joint
- Easy to use and adjustable poles -
- Low weight: 10 kg (6 kg in water)
- Rotating brushes
- The same unique cleaning capacity as Piraya Automatic.

A Piraya Manual Pool Cleaner, in combination with a Piraya Automatic Pool Cleaner is this the best alternative for the larger bathing premises, with many pools of different shapes and sizes.
